

IMO Container Lashing Set QUATTRO

4 point belt system 32mm belts, incl. 4 flat buckles

Container lashing has never been easier than with our container-lashing ready-made belt systems.

The system provides very fast and effective load securing inside a container. Your cargo is well protected against damage during transport, and when opening the container doors.

There is no risk or danger of injury for the receiver when opening and unloading the container.

Advantages :

- Using 4 attachments points (eyes) in the container
- Double load securing force than any other 2-point lashing system
- 4 horizontal belts to hold the cargo at any point of height
- Easy manageable and inexpensive solution
- Fits any size of the container, standard and high cube (HQ)
- A Set of 2 comes with 4 non-slip flat stamped buckles
