

G 50

Polyester Woven Strapping 16 mm

Woven strapping belts are made of high tensile polyester yarns.

Due to its material characteristics it has low elongation (below 11%), is highly tear proof and absorbs very little moisture.

Furthermore the strapping can be retensioned in case of volume loss in the packaged goods and has a high breaking load, linear and within the system.

Woven strapping belts will not splice, are flexible and universally applicable.

Technical Data

Material:

High tensile polyester yarns, woven, glue coated, pre tensioned and heat dried for higher strength

Belt width	16mm (5/8")
Linear breaking strength	450 daN
Max. system strength	720 daN
Max. securing load (MSL)	500 daN (510 kgf)
Max. strength with buckle	WB-16P
Coil inner core	78 mm
Meters on coil	850 m

Packing

Carton size	350 x 350 x 470 mm
CBM / CFT	0,05757 m³ / 0,62 ft³
Coils per carton	3 coils
Gross weight	23,1 kg
Pallet size	1050 x 1050 x 145 mm
Cartons per pallet	36 cartons
Total weight	850 kg

Item No. 8230206 (G50)

- no damage to most surfaces
- no corrosion & easy handling
- low investment cost
- high shock absorption
- a small, manageable system
- limited resistance against lyes and acids
- no risk of injury for shippers and consignees in using or opening the strapping
