G 65

Polyester Woven Strapping 19 mm

Woven strapping belts are made of high tensile polyester yarns.

Due to its material characteristics it has low elongation (below 11%), is highly tear proof and absorbs very little moisture.

Furthermore the strapping can be retensioned in case of volume loss in the packaged goods and has a high breaking load, linear and within the system.

Woven strapping belts will not splice, are flexible and universally applicable.

- **no damage to most surfaces**
- **no corrosion & easy handling**
- **low investment cost**
- **high shock absorption**
- **a small, manageable system**
- **limited resistance against lyes and acids**
- **no risk of injury for shippers and consignees in using or opening the strapping**

Technical Data

Material:
High tensile polyester yarns, woven, glue coated, pre tensioned and heat dried for higher strength

Belt width	19mm (1/2")
Linear breaking strength	750daN
Max. system strength	1100daN
Max. securing load (MSL)	550daN (561 kgf)
Max. strength with buckle	WB-19P
Coil inner core	78 mm
Meters on coil	500 m

Packing

Carton size	350 x 350 x 500 mm
CBM / CFT	0,05757 m³ / 0,62 ft³
Coils per carton	3 coils
Gross weight	22,1 kg
Pallet size	1050 x 1050 x 145 mm
Cartons per pallet	36 cartons
Total weight	810 kg

Item No. **8230210 (G65)**
