

Safetrans Dunnage Bag Specification Sheet

Date : 01-11-2014

Type : 90 x 180 L

Length: 180 cms.

Width : 90 cms.

Strength:

Working pressure : 0,1 bar or 10 kPa or 1,5 p.s.i.

Bursting pressure : 0,3 bar or 30 kPa or 4,5 p.s.i.

Safety factor : 3

void in cms.	contact surface per bag side in cm ²	working pressure in bar	effective force being exercised against cargo in kgs.
20	12200	0,1	1220
30	9500	0,1	950
40	5500	0,1	550

void in cms.	contact surface per bag side in cm ²	bursting pressure in bar	effective force exercised at burst in kgs.
20	12200	0,45	5490
30	9500	0,3	2850
40	5500	0,2	1100

Tolerance on length and width is 3,5%
